

¡Favor de no consumir el agua sin antes comunicarse con nuestro Department de Servicio al Cliente al 877.987.2782!

An Important Health Notice From Aqua*

PLEASE READ THIS BEFORE USING YOUR WATER!

As part of Aqua's Customer-Owned Lead Service Line Replacement Program ("Replacement Program"), Aqua, or Aqua's contractor, replaced your customer-owned lead service line. Before using your water please follow the flushing instructions below:

Please review and follow these very important **instructions**¹ to minimize your exposure to metals, such as lead, which might have been stirred up due to the service-line replacement work. Please flush all your faucets using these steps:

-  **1** If possible, remove faucet aerators from all water faucets in the home.
- 2** Beginning in the lowest level of the home, fully open the cold water faucets throughout the home.
- 3** Let the water run for at least 30 minutes at the last faucet you opened (which was on your top floor).
- 4** Turn off each faucet starting with the faucets in the highest level of the home. Be sure to run water in bathtubs and showers as well as faucets.
- 5** Clean and reinstall any aerators you might have removed in Step 1.
- 6** Do not consume tap water, open hot water faucets, or use icemaker or filtered water dispenser until after flushing is complete.

¹Based on the American Water Works Association-recommended safety procedures (awwa.org).

You might also wish to use a NSF-approved home filter for water to be used for drinking and cooking, particularly if you are pregnant or have children under age six. Go to NSF.org for more information.

Please visit Aqua's website for more information concerning Aqua's Replacement program at <https://www.aquaamerica.com/our-states/pennsylvania/leadservicelines.aspx>. Thank you for letting Aqua serve you! For questions or concerns, please contact Aqua customer service at **877.987.2782**.
